

Admerex announces Q1 2018 financial results

Admerex continued its revenue growth momentum for the first 3 months of 2018, with consolidated service revenues reaching a record P88.0 million, 28% higher than the P68.8 million reported in the same period of 2017. The all-time high revenues reflect the robustness of the emerging BPO's operational and growth strategies. This outstanding result was likewise brought about by the solid execution of the Company's expense streamlining, and the retention and acquisition strategy of client partnerships.

"We are very pleased with our accomplishments for the first three months of 2018 and the sustained record-level Revenues and EBITDA. These milestones continue to motivate us in the SMT to do excellent work in all aspects of our business," Admerex President & CEO Rob Dizon said. "This year, as we focus more on the technological innovation of our services and differentiated client experience, we expect to maintain our growth momentum; and end the year with our best financial output in our 11 year existence." Mr. Dizon added.
