

## **Admerex Cares Foundation**

Admerex announced that it has just established the Admerex Cares Foundation to align with the BPO's social responsibility and commitment to the community they are a part of. "Admerex has an 11-year tradition of investing in its communities," said Nino Carci Cruz, HR Manager and President of the Foundation. "We just want to formalize that effort through a foundation that will support our corporate goals as well as our employees' involvement in our desire to promote nation building. Our objective is to make focused, sincere, and impactful contributions within the communities of our people and where we conduct our business."
